Dr. Joshua Lederberg, President  
Rockefeller University  
New York, NY 10021

Dear Josh,

I saw David Suzuki at the Genetics meetings in Raleigh, and he inquired as to the status of the Sonneborn memorial statement. I told him I would see where we are. I don't know how you responded to the suggested "package" of the Nanney Appreciation plus the Lederberg Commentary. I feel a little guilty in pushing this toward you, both because of your professional distance from Tracy and because of your urgent administrative responsibilities. I hope you won't feel constrained to do something you are uncomfortable with. I can tinker with the old Appreciation a little and make it do the job by itself, if that is necessary.

I'm off to Warsaw on July 3, to the International Congress of Protozoologists, where once again I have to make a statement--in this case concerning T.M. Sonneborn: Protozoologist. I hope I don't have to spend the rest of my days explaining Sonneborn's, though it is an interesting exercise.

I hope all is well with you, and that you can let me know your reactions to this business before too long.

Yours very truly,

  
D.L. Nanney

JUL 2 1981

Dear Dave

I owe such a debt to Tracy, I feel rather guilty I just haven't had the time needed to get into the reflective mood to do justice to the Commentary. The summer is out too. Let me see if I can take a crack at it in the fall, < Oct. 1 latest if at all.  
Yours, Josh
